PROFESSIONAL BIO

Alex Hernandez serves as a Managing Partner at CSA providing carbon management and sustainability services to U.S. Federal, State, and Local governmental entities. Mr. Hernandez has performed environmental services for federal agencies such as the U.S. Department of Energy - National Renewable Energy Lab, U.S. Army Corps of Engineers and the U.S. Department of Agriculture – Natural Resources Conservation Services. Mr. Hernandez has also advised a wide ranging list of commercial clients on their carbon footprints and has extensive experience in the commercialization of carbon credits from landfill gas, forestry, and energy efficiency projects. He previously held posts at both Blanchard & Company and Citigroup. At Citigroup, Mr. Hernandez worked in alternative investments where he managed hedge funds, private equity, real estate, and structured products sold in the U.S. and Latin America. Mr. Hernandez was also a Captain in the U.S. Marine Corps specializing in logistics operations, where he has also served collateral duties as a Nuclear, Biological, Chemical Warfare Officer. He holds both a BA Cum Laude and an MBA in Management and Finance from Tulane University.

RELEVANT PROJECT EXPERIENCE

Program Manager: Energy and Conservation Strategy; New Orleans Public School System; New Orleans, LA - Performed environmental services for federal agencies such as the U.S. Department of Energy - National Renewable Energy Lab. Acted as Program Manager for DOE's National Renewable Energy Lab contract to provide energy audit and conservation strategy to over 70 schools in New Orleans.

Officer in Charge: Sustainability Action Plan; City of Fort Lauderdale, FL - Acted as Officer in Charge and executed all agreements with the City of Fort Lauderdale, provided oversight for billing, invoicing and general project management. Has ultimate responsibility to the City and provided quality control and assurance of final deliverables.

Program Manager: FCC digital television transition project - Overall program management responsibility on a Federal Communications Commission (FCC) contract assisting individuals throughout 14 southern half states of the U.S. with the recent Digital Television (DTV) transition effort. Expert services required a highly trained individual to visit individual homes where the homeowner was unable to obtain satisfactory reception even after the DTV converter boxes were installed. Efforts resulted in over 14,000 installations.
